

## Launch of SLAUS Uro-Oncology Database App

It's with great pleasure that we announce the launch of official SLAUS Uro-Oncology Database app in 2019. There has been a big dearth of updated data in urological malignancies of Sri Lanka which will be addressed by this initiation. App is completely free for SLAUS membership and has been developed by the generous efforts of SLAUS member Dr Anuruddha Abeygunasekera & Dr Malaka Jayawardene. We hope the members will actively contribute to the National Uro-Oncology Database through this app. App is available on both Android & Apple mobile platforms. (Further information visit [www.SLAUS.org](http://www.SLAUS.org))

## Sri Lanka Association of Urological Surgeons (SLAUS)

### 14<sup>th</sup> Annual Academic Sessions 2019

Annual Academic Sessions of the Sri Lanka Association of Urological Surgeons will be held on 29<sup>th</sup> and 30<sup>th</sup> November 2019 at Shangri-La Hotel, Colombo. This will be preceded by three Pre-congress workshops (Live Surgery Demonstration, Uro-pathology Symposium and Robotic Surgery video demonstration) over 3 days from 26<sup>th</sup> November. Urology Nurses symposium on 25<sup>th</sup> November is aimed at improving knowledge of the nurses who are caring for Urology patients in both state and private sector hospitals Island wide. The Inauguration ceremony is scheduled for the evening of the 29<sup>th</sup>.

This year's Academic Sessions is held jointly with the British Association of Urological Surgeons (BAUS) and Royal Society of Medicine (RSM). An eminent faculty, both local and overseas up to a total of 45 is expected to contribute for the sessions with their expertise in the field.
